

Product Safety Recall

Five Oceans Pty Ltd

2 Tonne Vehicle Ramp - 2 Piece (1000kg/ramp)

Sold via eBay store 'Gosuperspecial' between March to December 2018

Defect The product does not comply with the requirements of mandatory standard 'Consumer Goods (Portable Ramps for Vehicles) Safety Standard 2017'.

The ramp may deform significantly when overloaded.

Hazard As the ramps are used for raising the front of a vehicle off the ground, there is potential for a crushing hazard if the ramp is misused (excessively overloading) while a person is underneath the vehicle. This may result in serious injury or death.

The designated load limit of each ramp is 1000kg. When the ramp is overloaded for more than 1950kg, it may deform significantly.

What to do Consumers should either cease using the ramp or avoid overloading the ramp.

Consumers can contact Five Oceans via email sales@gosuperspecial.com for a full refund of the product.
