

Product Safety Recall

Cannondale CAADX Cyclocross Bicycles Equipped With Disc Brakes MY2013-2016

Supplied from 1 August 2012 to 1 August 2017

Defect: The fork can fracture or break, which can allow the wheel to detach from the bicycle during use.

Hazard: Fork can fracture and then detach, posing a fall hazard with the risk of death and serious injury.

What to Do: Consumers should immediately stop riding their bicycles and take it to the nearest Cannondale dealer for a free repair. Cannondale dealers will replace, free of cost, the bicycle's fork with a full carbon fibre replacement fork.

To check if a bicycle is affected by this recall, inspect the bicycle to confirm it has all of the following features (as shown in the picture above):

1. A prominent CAADX marking on the top tube or other tube
2. Disc brakes
3. A large "ULTRAX" marking on the inside of the fork leg
4. A black plastic cable running to the front disc brake that is outside of the fork blade (not internally routed within the fork blade)
