

ELECTRICAL SAFETY RECALL

Torqeedo outboard Li-Ion motor batteries

Travel

Ultralight type 1

Ultralight type 2

IDENTIFICATION:

The Torqeedo models "Travel" and Ultralight type 1 and 2" outboard motor Li-Ion batteries are affected by this recall. The affected "Travel" model is marked with a serial number beginning from S.Nr.1001 to S.Nr.1752. The affected "Ultralight" models are marked with serial numbers beginning from S.Nr.1117 to S.Nr.1826 as indicated above.

The affected units were sold in Australia through various distributors and retailers between 2010 and 2018.

DEFECT:

Due to a defect in production, the lithium ion batteries may not be waterproof and can fail if water enters into the battery.

HAZARD:

Risk of Fire.

ACTION REQUIRED:

- Immediately stop using the Torqeedo outboard motor battery.
- Consumers with the affected models will need to register the batteries on the www.torqeedo.com/safety. Torqeedo GmbH will then contact consumers directly to advise which Torqeedo service centre to get the battery checked and repaired or replaced.

CONTACT DETAILS:

For further information please call Power Equipment Pty Ltd on 1800 069 469 (Monday to Friday, 8am–5pm AEST), or email asia@torqeedo.com.
