

## Product Safety Recall

### TOOL KING Hydraulic Trolley Jacks

R King Enterprises Pty Ltd (ACN 007 925 162) trading as Mocare (Aust) ("Mocare") has imported and supplied hydraulic vehicle trolley jacks under the brand Tool King, since September 2008, as follows:

1. TJ-1350 (1,350kg);
2. TJ-1550 (1,550kg);
3. TJ-1850 (1,850kg);
4. TJ-1350PC (1,350kg);
5. TJ-1550-PC (1,550kg). **Batch #808.**

The Australian mandatory standard for all trolley jacks (AS/NZS 2615:1995) ("the Standard"), requires all trolley jacks (up to and including a 2.5 tonne capacity) supplied in Australia to be permanently and legibly marked in English with a warning notice ("the warning notice") bearing the following words:

**USE ONLY ON HARD LEVEL SURFACES  
DO NOT GET UNDER A VEHICLE THAT IS ONLY  
SUPPORTED BY A TROLLEY JACK – USE SUPPORT STANDS**

The warning notice was not included on the Tool King trolley jacks described above. Consequently, the trolley jacks do not comply with the Standard.

If you have purchased a Tool King trolley jack in one of the models described above since September 2008 which omits the warning notice, please contact us and arrangements will be made to either:

1. Place a sticker on the trolley jack, providing the warning notice;
2. Replace the trolley jack with a new trolley jack, containing the warning notice, or
3. Refund the purchase price of the trolley jack upon the goods being returned.
