

ELECTRICAL SAFETY RECALL

Mattel (Fisher-Price) Dots and Spots Puppy Deluxe Swing with Plug-in Adaptor

IDENTIFICATION:

The affected Dots and Spots Puppy Deluxe Swing model (SKU GVF83) was sold on www.target.com.au and www.catch.com.au between 1 January 2021 and 4 September 2021.

The plug-in adaptor which was supplied with the swing is being recalled. Other Mattel/Fisher-Price products are not affected by this recall.

DEFECT:

The swing was supplied with an overseas plug-in adaptor which is not designed for use in Australia.

HAZARD: If used with an incompatible power source there is an increased risk of electric shock, which can cause serious injury or death.

ACTION REQUIRED:

- Stop using the overseas plug-in adaptor immediately.
- Affected consumers will be contacted directly.
- Mattel will provide consumers with an Australian approved plug-in adaptor to replace the overseas plug-in adaptor, and will arrange for the return of the non-compliant overseas plug-in adaptor at Mattel's cost.

Recall updated - 21 October 2024: A new recall has been issued for this product as it is not safe if used for infant sleep and/or if bedding material is added when in use as the head rest and body support insert can increase the risk of suffocation. Please refer to [PRA 2024/20329](https://www.productsafety.gov.au/PRA-2024/20329).
