

The uvex logo is located in the top right corner of the page. It consists of the word "uvex" in a bold, lowercase, sans-serif font.

## IMPORTANT SAFETY NOTICE

uvex riding helmets “**exxential**” (formerly “uvision”) and “**supersonic elegance**”

A black riding helmet is shown in profile, facing left. It has a dark, aerodynamic shape with several ventilation ports on the top and sides. The chin strap is visible at the bottom.

In May 2013 the Swedish consumer agency “Konsumentverket” tested 11 riding helmets from various manufacturers and 10 helmets received complaints. One of these helmets is a uvex helmet – the model **exxential** (formerly **uvision**). Due to this test result we then subjected helmets from all our series to extensive in-house testing and determined that some helmets do not conform to standards related to penetration resistance and/or shock absorption. In the case of an accident this may result in injuries. Even though not all helmets are affected, we take our principle of “protecting people” very seriously. If you own a riding helmet of the model **exxential** (formerly **uvision**), **uvision elegance** or **supersonic elegance**, please immediately cease using it as you will not be able to determine yourself whether your helmet is affected.

A light grey or silver riding helmet is shown in profile, facing left. It has a similar aerodynamic shape to the black helmet but with a lighter color. The chin strap is visible at the bottom.

Please return the helmet to the dealer where you purchased it. We will retrofit your helmet or provide a replacement helmet that is at least equivalent. As a German manufacturer of quality products we would like to offer our sincere apologies for any inconvenience caused. Please do not hesitate to contact uvex at Tel.: +49 911 9774-0 if you have any questions.

We thank you for your much-appreciated cooperation and hope that you will continue to place trust in our products “made in Germany”.
